

GENESYS™

Mid-Size Walk-Behind Scrubber Series

Bluetooth Battery Gauge Update Instructions

7.23.2020

Below please find the instructions for updating your demo machine's Bluetooth Battery Gauge. Here is what you will require:

- 9/16" Socket Wrench (preferred) or Adjustable Wrench
- Mobile Device with Bluetooth

Follow the steps below and should you need help or troubleshooting, you can contact:

Jacob Weil

Direct: 419-725-3734

Cell: 419-304-0679

1. From the Google Play Store or the Apple App Store download the app "ProView Link" by Pro Charging Systems to your Mobile Device. If you already have the app, open it and insure that the version listed in the bottom right is v0.10.2 or newer.

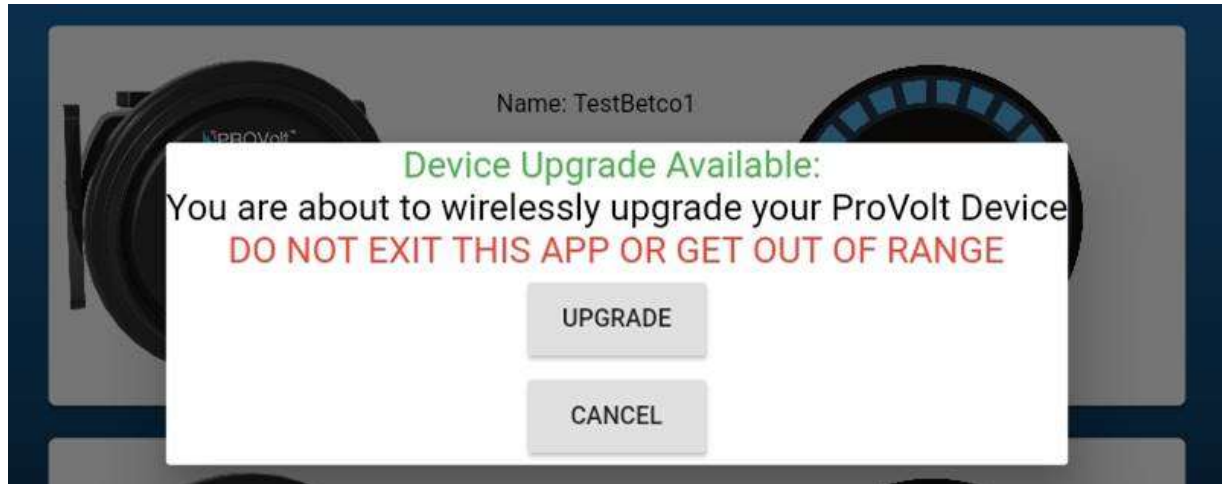

2. Disconnect the battery from the scrubber using a 9/16" socket wrench or adjustable wrench and wait 1 minute, then reconnect making sure the nut is snug tight.

3. Turn on Bluetooth and open the ProView Link app.

4. Upon connecting to a Gauge, you will receive the following pop up confirmation **within 10 seconds of being connected** – select **UPGRADE**:

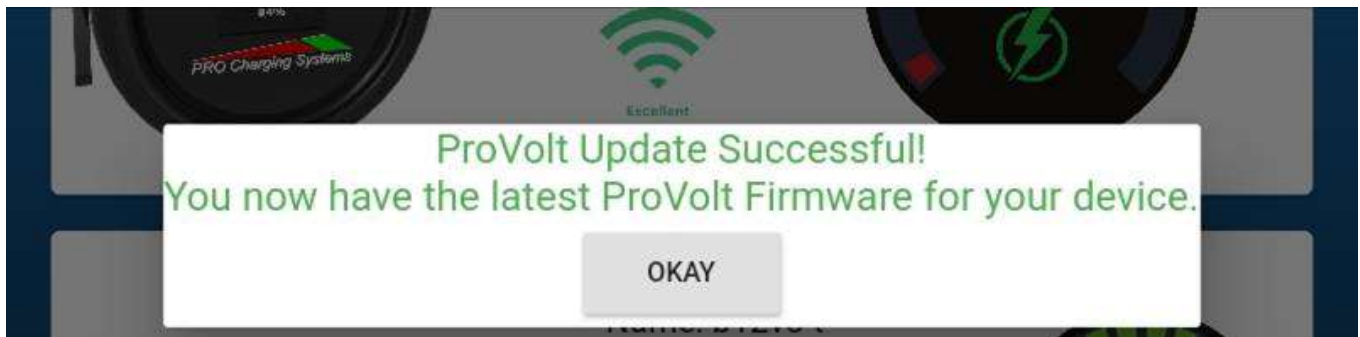

5. Depending on your phone/tablet, the update will take anywhere from 30 seconds to 2 minutes. **Do not close the app or walk away during this process.**

6. **Upon completion, disconnect the battery for 1 minute and then reconnect to RESET the lights.** Use the 9/16" socket wrench or adjustable wrench ensuring that the nut is tight when reconnected.

Should the update have been successful, you will receive this message – Click “OKAY”:

If you get these lights after the update, wireless interference caused the update to fail and you'll receive the message below. Tap the bar to restart the process.
