

TECHNICAL BULLETIN BETCO APPENDIX

Machine model: Genie APS
Since the serial number: 209005313
Date: 29/05/2009
Subject: Modification on the Handle Cover

To improve the quality of the Genie APS Handle the production process changed and some modifies had been done to let the installation be easier.

REMOVE		
Q.ty	Part Number	Description
1	423062	Handle Cover
1	424457	Handle label E86191
4	415789	Screw M3x20
4	415882	Nut M3
4	409148	Washer 4x8x3 Nylon
4	409142	Washer M4
4	409077	Self locking nut M3
4	212618	Spacer d=3,5 D=8 L=6,5

ADD		
Q.ty	Part Number	Description
1	424461	Handle Cover E81781
1	428269	Label (BETCO Version)E20502
4	415866	Screw D2,9x9,5
2	408872	Scres D.3,9x16

The handle body (pos 61 code 416745 in the drawing) had not been modified but we always suggest, in case you need to replace the cover, to replace the body as well. This suggestion is to assure the compatibility in colors and mechanics.

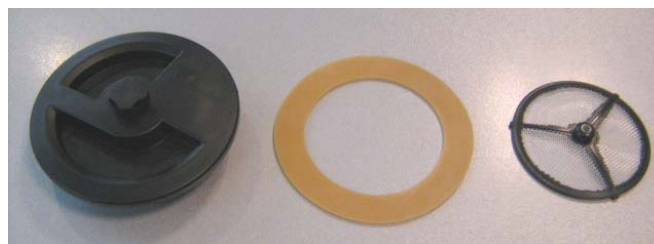

Machine: GENIE B
Since the serial number: 209003661
Date: 06/04/2009
Subject: Solution tank cap solution tank filter

DESCRIPTION:

To improve the performances of the solution tank cap the old model has been replaced by a new one:

RIMUOVERE	
CODE	DESCRIPTION
422005	Solution tank cap
423100	Solution tank filter

ADD	
CODE	DESCRIPTION
216412	Solution tank cap new style E81548
425742	Solution tank filter new style E88233

Machine: GENIE B
Since the serial number:
Date: 27.04.2009
Subject: Squeegee hose guard

DESCRIPTION:

To avoid damages to the vacuum system hose when the machine is driven backward a hose guard has been installed on the machine.

This improvement can be installed in old machines too.

ADD	
CODE	DESCRIPTION
217520	Suction system hose guard E20701

217520 Hose Guard
