

There are four different brushes/pad driver options for the EZ-mop 360 machine.
The part numbers, descriptions and applications are below.

ITEM	DESCRIPTION
 <p>PPL O6 BRUSH Part number 830186</p>	<p>Can be used for cleaning hard surfaces such as cement, tiles, clinker, porphyry etc.</p>
 <p>PAD DRIVER Part number 830188 Requires 7" pads</p>	<p>Covered with Velcro and a sponge disc (pad). The abrasiveness of the sponge varies according to its colour: white (soft) to black (very abrasive). Choose the type of sponge according to the type of floor, for example:</p> <ul style="list-style-type: none"> • parquet - white or yellow • PVC - blue or red • wax removal or cement - brown or black.
 <p>P.E.S. BRUSH Part number 830187</p>	<p>Fibre bush with bristles of various diameters (from 0.1 to 0.6 mm). Can also be used without detergent on treated surfaces or wood. Its mixture of bristles means it can also be used just to polish treated floors.</p>
 <p>TYNEX BRUSH Part number 830189</p>	<p>Made of carbon fibre, it can be used only for heavy duty cleaning applications. For example on tiles in industrial kitchens, production departments with machine tools, foundries etc. When used with a suitable detergent, it can be used to remove sludge or dirt consisting of lime deposits or of plant or animal origin (grease). Warning: The Tynex brush MUST NOT be used on delicate flooring materials (such as parquet, marble, PVC etc.).</p>
