ULPA FILTER CERTIFICATION

Materials

- **Casing:** Constructed of high impact ABS and heavy gauge steel mesh.
- **Media:** Long life polymer laminated ULPA media.
- **Gasket:** 1/8" microcellular urethane positive seal

Efficiency

- 99.999% efficient @ 0.12 microns.
- Each and every filter is serial numbered and tested to the Institute of Environmental Sciences and Technology standard IEST-RP-CC007.

Capacity

- 1,224 sq. in. of filter area.
- Test airflow: CFM: 100 @ 3.5" W.G.

Director Of Engineering
Jesse Mondigo
