

**To Whom It May Concern:**

**RE: 800 SERIES H.E.P.A. EQUIPPED VACUUMS**

**We wish to take this opportunity to advise you that all of our Minuteman 800 Series H.E.P.A. Filter Vacuums, including our Model X829 and X839 Critical Filter Vacuums filters meet or exceed the U.L. Standard 586 and ANSI Z9.2 Standards.**

**All of H.E.P.A. filters are DOP tested in accordance with MILSTD 282, and are registered and labeled on each individual unit by the manufacturer. All the filters we use meet, and in most cases, exceed the minimum standard of 99.99% efficiency for .12 micrometer particles.**

**Sincerely,**

**Ken Kaczmarz  
Director of Engineering**
